

THE ISLAND TIMES

BLIZZARD JONAS ON TURKEY POINT ISLAND SNOWTORIOUS B.I.G.

It may have taken all winter to get some snow on the Island, but when Jonas came through we got all of it! Generous neighbors shared their resources to help dig others out, and the kids had fun exploring their transformed surroundings.

SPEEDING IS STILL A PROBLEM!

By TPPOA

No one intentionally races on and off the island. Speeding happens when you are late getting out of the house or in a hurry to be home after a long commute. We all tend to do it. However, speeding in our community is very dangerous. More than a few years ago, our community suffered a child fatality as a result of speeding.

Please do what you can to protect yourself and neighbors by watching your speedometer as you turn onto Turkey Point Road. And remember...you are on "Island time" now!

A FEW NOTES ON PEDESTRIAN/DRIVER ETIQUETTE

- * Pedestrians can stay safe by being aware of traffic and dressing in bright colored clothing or wearing lights or reflectors when walking, biking, or running at night.
- * Drivers should respect the space of pedestrians by slowing down and allowing plenty of room between the car and the pedestrian.
- * If possible, drivers should shift to the other lane when passing.

And now on Facebook!

By Lee Ann Candon

The South River Federation is the only non-profit organization whose sole mission is to protect, preserve, restore and celebrate the South River and its interdependent living community. TPI is lucky to have such direct access to a wonderful commodity. Visit their website to learn more, get involved, or help

support the work being done. Their annual fundraiser "South River on the Half Shell" will be March 19th at Homestead Gardens. It is the perfect way to meet the board, staff, members, and partners who are all working for a clean South River. It is rumored to be "One Shell of a Party!"

KEEPING OUR ISLAND BEAUTIFUL

By TPPOA

There are many amazing views on Turkey Point Island. It is what drew all of us to this lovely neighborhood. Please keep our island beautiful by securing your trash and recycling to prevent wind and animals from scattering it about. Thank you!

WEBSITE HELP NEEDED!

The TPPOA is looking for a volunteer to take over the TPI Website. Please contact Charlie Candon at 410-963-6851 if interested.

MAYO PENINSULA FORCE MAIN IS WELL UNDERWAY!

BY TPPOA

The installation of a force main was required by the EPA to bring the Mayo Reclamation activity to current standards and increase capacity. The initial phase to run the line under the South River from Loch Haven Community beach to the Quiet Waters South River Overlook has been completed on time. Now the line will connect through Quiet Waters park, across Forest Road and down Edgewood Road ending at the Annapolis water reclamation facility where the waste water will be treated with enhanced nutrient removal standards. Once completed, the system will accommodate an additional 1300 dwellings on the peninsula. More information can be found at: www.capitalgazette.com/news/environment/ph-ac-cn-mayo-sewer-1104-20151104-story.html

A SPOOK-TACULAR HALLOWEEN

Once again, the Halloween party was a success! The Supple Family volunteered to host the event. Jim Ziepolt and Lloyd Lewis brought in tables and plenty of hay bales! Trick or treating temperatures were perfect for front yard fire pits that lasted well into the evening. These parties and our social community are a big part of why living here is so special. If anyone is interested in hosting this year's Halloween bash, please contact Beth Supple at beth.supple@gmail.com

FIREHOUSE SANTA

The Woodland Beach Fire Department would like to thank everyone who took the time to donate a present and meet Santa! Holiday giving and seeing Santa has become a fun way for young Islanders to kick-off the holidays.

OYSTER RESTORATION EFFORTS AT THE PIER — By Lee Ann Candon

There are three oyster cages hanging off the community pier, as well as, off many Islanders' waterfront piers. These are a part of the native oyster restoration program coordinated through The South River Federation, in partnership with Marylanders Grow Oysters. The program gives hundreds of waterfront property owners the opportunity to participate in hands-on oyster restoration. Those with access to community piers or have their own pier, grow millions of young oysters (also known as spat) in cages suspended from these piers each year. Their goal is to

protect the spat during their vulnerable first year of life, so they may be planted on local sanctuaries (which are closed to harvesting) where the oysters enrich the ecosystem and our native oyster population.

Everyone on the island is encouraged to pull up the cages for a close look at the growing spat and to see the ecosystems the cages create. However, **Please note: The spat can survive in freezing water, but will perish if they are exposed to freezing air! Please be sure to**

Upcoming Events Calendar

April 9th
Spring Clean-Up Day
9:00 am at the Pier

April 13th
General Meeting*

All Islanders are welcome and encouraged to come to the General meetings! Please come hear community updates and share any ideas or opinions!
